

## ArrayStatsTester2.java

```
package tester;

import loops_and_arrays.StringArrayAnalyzer;

public class ArrayStatsTester2
{
    private final static String[] testArray =
        {"..."}; //EMPTY TO SAVE SOME PAPER

    public static void main(String[] args)
    {
        String[] array =
            { "" };
        StringArrayAnalyzer myAnalyzer = new StringArrayAnalyzer(
            testArray);
        myAnalyzer.analyze(testArray);
        System.out.println(myAnalyzer.toString());

        myAnalyzer = new StringArrayAnalyzer(array);
        myAnalyzer.analyze(array);
        System.out.println(myAnalyzer.toString());
    }
}
```
